CRANE SERVICE

Our approach to crane maintenance

Lifecycle Services

Weihua Crane provides users with life cycle services, including crane project design, crane installation and commissioning, crane upgrade and transformation, crane maintenance inspection, crane emergency repair and crane operation training. Through crane life cycle services, we provide users with safe and reliable crane operation experience and continuously improve users' safety and productivity.

Crane Retrofit

Project Design

Maintenance and Inspection

Installation and Debugging

Operation Training

Emergency Repairs

Weihua
makes the world
easier.

European Style Single Girder Overhead crane

Lifting capacity:1t~20t

Span:7.5m~31.5m

Work duty :M5

Lifting height:3m-24m

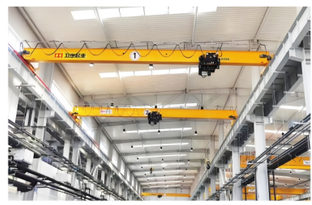

PRODUCT INTRODUCTION

This product is our new designed crane for the low workshop and high lifting height demands. It has many advantages such as: Strong rigidity, light dead weight, outstanding structure design, etc.

PRODUCT INTRODUCTION

1 Hoist

2 Hook

3 End carriage

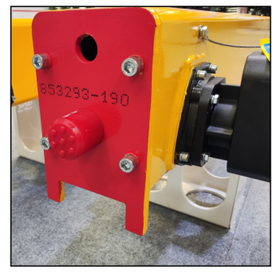

4 Motor

5 End Carriage Wheel

6 Electrical control box

7 Crane buffer

8 Trolley buffer

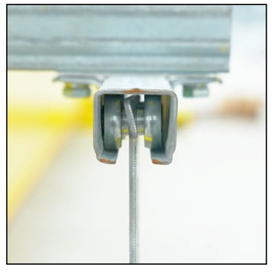

9 Remote control

10 Crane limiter

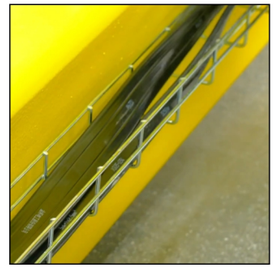

11 Pendant cable

12 Cable trolleys

13 Pendant track

14 Cable basket

15 Conductor bracket

16 Drag chain

About WEIHUA

Founded in 1988, Weihua Group is a large-scale equipment manufacturer specializing in the R&D of overhead cranes, gantry cranes, port machinery, electric hoists, reducers, bulk material conveying equipment and so on. Weihua has been developed 10 series of more than 200 types of lifting equipment. The main products are widely used in machinery, metallurgy, mine, power, railway, harbor, petroleum, chemical industries to serve thousands of large enterprises and national key projects.

Export to over 170 countries

They have been exported to more than 170 countries and regions,including Mexico, Brazil, Kazakhstan, Singapore, United States, Thailand, Malaysia, Australia and so on.

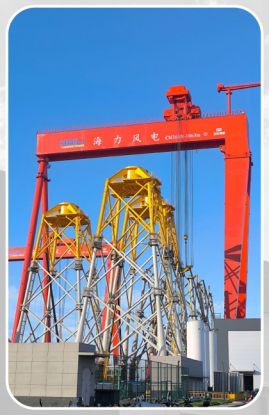

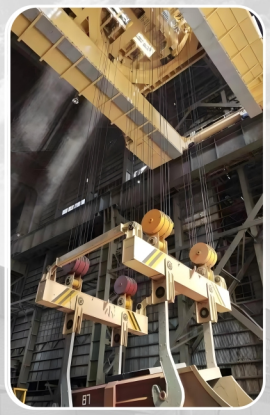

Weihua's Research & Development Excellence

At Weihua, research and development are the engines powering our 36-year legacy of technical leadership in crane manufacturing and aftermarket services.

Intelligent Production Line

Weihua Crane adopts intelligent manufacturing methods. The automatic welding robot has a precise welding control system and sophisticated sensor technology, thereby ensuring the stability and consistency of welding quality.
